

PARTNERS FOR
Andean Community Health

Annual Report **2018 In Review**

Partners for Andean Community Health (PACH) strives to improve access to healthcare and community services for the people of the Andes. Our innovative approach ensures effective continuum of care with high-impact programs. Our focus is healthcare accessibility and affordability for vulnerable communities in Ecuador. We promote a culture of well-being, disease prevention, and a respect for diversity.

2018 was a truly remarkable year for PACH. Not only did we empower our clinical partner, FIBUSPAM, to provide affordable health care to thousands of Ecuadorians in need, but we also made important changes to our organization that will contribute to our sustainability and enduring impact in Ecuador for years to come.

It is unbelievable how far we have come and we are so excited about where we are going.

Here are the highlights of our year.

In 2018 PACH:

Facilitated care to

6,799
individuals

in the communities in and around Chimborazo Province
in partnership with FIBUSPAM
