

PARTNERS FOR
Andean Community Health

Annual Report 2019

2019 was a monumental year for PACH. After years of planning and anticipation, we have expanded the FIBUSPAM clinic to include a third and fourth floor. With this new addition, we are now housing twenty medical specialties which all serve to provide affordable healthcare to Ecuadorians in need.

We continue to move our mission forward to improve access to healthcare and community services for the people of the Andes. Our unique program model focuses on healthcare accessibility and affordability for vulnerable communities in Ecuador by empowering our local partners and leveraging the expertise, energy, and resources of volunteers.
